

Next generation photogrammetry software for professional drone and terrestrial mapping

Terrestrial workflow

Fully automated processing

Bigger datasets, accurate results

Surveying and mapping

Bridge the gap between photogrammetry and CAD

Vectorize anything

CAD ready

Volume measurements

Surveying and mapping

PIX4D

# MEASURE FROM IMAGES

A unique photogrammetry software suite for mobile and drone mapping

Pix4D Inc. Denver  
1615 Platte St, 3rd Floor  
Denver, CO 80202  
Phone: +1 720 204 8069

## PIX4Dcatch

RTK workflow

The viDoc RTK rover with PIX4Dcatch: Accurate surveying with a mobile device

Easy field-to-finish workflows

RTK positioning rover for 3D scanning

A complete, accurate workflow in your hands

Construction

## PIX4Dcloud

The online platform for ground and drone mapping, progress tracking, and site documentation

Easy to use

Efficient collaboration

Up-to-date documentation

Construction

## PIX4Dinspect

AI-powered Digital Twin platform for industrial inspection and asset management

Automatic processing

Advanced analytics

Dedicated inspection tools

Inspection
